

About Edlevo for guardians

With Edlevo, you as a guardian or other responsible adult easy access important key functions in preschool and school by your mobile and tablet.

You can get information from preschool or school for your child/children. You get a good overview and keeps you updated on important events in daily operations.

The app will successively be expanded with more easily accessible features for preschool and school. Features that give you as a parent the opportunity for a transparent communication between school and home.
