

Navigation

For guardians.

From the home page and the menu in the upper right corner, you can navigate to the functions that are common to all your children. The contents of the functions are presented for all children and is marked with the name of which child/children it concerns.

From the home page you can also choose to navigate to functions by clicking on the icon of a child. This displays the functions and content that is specific to that child and the activity the child is in.

The functions include the ability to navigate between different views through navigation arrows and back arrow in the upper left corner. When you navigate to a function from the menu the back arrow in the upper left corner is not available. To change function in this mode use the menu again.
