# Home (Edlevo App)

Home shows the daily information for children attending early childhood education on the selected day.

Watch the video about Home module in the Edlevo App.

Depending on the services available in the municipality, you may see the following information:

- Start and end times of the day based on the care schedule
- Information about when the early childhood education facility is closed
- Reported absences
- Information about an already booked meeting time or if there are available meeting times
- Information about upcoming placements
